

Sunnyside East Village

A new village is forming in Happy Valley/Clackamas to provide older adults with ways to comfortably age-in-place. Sunnyside East Village is a vibrant community of seniors helping each other live independently. It's part of a national movement to embrace the strategy of bringing services to people rather than moving people to services. There will be:

- Services provided by volunteers, such as transportation to appointments, occasional help with housekeeping, technology assistance, friendly visits and telephone check-in, organizing and decluttering, and non-medical assistance with home recovery.
- Opportunities for socializing and recreational activities, such as coffees, book groups, potlucks, brunches, happy hours, theater events, group walks, games, classes, and more.

During our Village's organizational phase, we have many opportunities for volunteers to help with publicity, membership, technology, outreach, events coordination, and more. Volunteers are the cornerstone of our Village.

We hold a monthly Coffee Break to socialize and provide updates on our organizational development. The location can vary, so check our website for details. Please join us!
